MASONRY SUPPORT & WINDPOST SYSTEMS

IG produce an innovative range of masonry support and windpost systems backed by bespoke design and industry leading technical support.

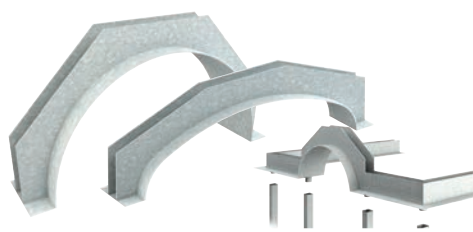

STANDARD LINTELS

IG produce a wide range of standard galvanised steel and stainless steel lintels. All IG standard lintels satisfy the thermal performance requirements of all UK building regulations.

STAINLESS STEEL

IG's full range of lintels is also available in stainless steel, providing the same high quality and performance features as our standard galvanised lintels.

SPECIAL LINTELS

IG offer a complete custom design service to ensure your project has the best lintel for the job. Our technical expertise is renowned for value engineering the optimum solution.

BRICK FEATURE LINTELS

IG Brick Feature Lintels are a one piece, prefabricated unit with factory applied brick slips. Units are manufactured bespoke to order and can achieve even the most challenging architectural designs.

CAVITY TRAYS

The IG Cavity Tray presents a lightweight, simple to install and long-lasting solution to preventing damp from penetrating below the roof line.
